How to Study the Bible (for Windows)

Version 5.2 Update for DOS

Our mailbox has been full with your suggestions and encouragements. We continue to expand our Bible study software with the features you request. Version 5.2 of our family of products is now available for DOS. Many changes have been made to enhance, expand and improve the tools you use to study the Bible.

New: Concordance Command

The new **Concordance** command opens an edit window and displays a portion of every verse in the Verse List in the familiar format of a concordance. Each line begins with a verse reference and includes a few words before and a few words following the search value. For example, if you search the book of John for the word "love" and then select the **Concordance** command, the new window will include:

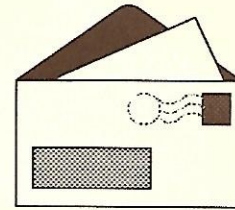

John 5:42	have not the [love] of God in you.
John 8:42	Father, ye would [love] me: for I proceeded forth and came from
John 10:17	doth my Father [love] me, because I lay down my life, that I
John 13:34	you, That ye [love] one another; as I have loved you, that ye
John 13:34	that ye also [love] one another.
John 13:35	if ye have [love] one to another.
John 14:15	If ye [love] me, keep my commandments.
John 14:21	and I will [love] him, and will manifest myself to him.
John 14:23	If a man [love] me, he will keep my words: and my Father will
John 14:23	my Father will [love] him, and we will come unto him, and make
John 14:31	know that I [love] the Father; and as the Father gave me
John 15:9	ye in my [love].
John 15:10	abide in my [love]; even as I have kept my Father's
John 15:10	abide in his [love].
John 15:12	commandment, That ye [love] one another, as I have loved you.
John 15:13	Greater [love] hath no man than this, that a man lay down his
John 15:17	you, that ye [love] one another.
John 15:19	the world would [love] his own: but because ye are not of the

The Concordance format allows you to easily review all the verses in the Verse List. To display the full text of a verse in context, just double click on any verse in the Concordance (or press the F5 key).

New: Word Frequency Command

Many themes of the Bible text are determined by what words were emphasized by each author. The new **Word Frequency** command counts every word in any portion of the Bible. It begins with a dialog for you to select boundaries. Use the **Range** button to set the range to any portion of the Bible text from Genesis to Revelation.

Word Frequency Boundaries

Count the occurrences of
each word within the range
JAM 1:1 - 5:20

Words to Include:

☒ All words
☐ Only words that occur:
at least [1] times
and no more than [64000] times.

Select the **Search** button and every word will be counted in the range of the Bible you requested. The word list will show what words were found and how many times each word occurred.

Word Frequency

Words	KJV translation
44 a	Range: JAM 1:1 - 5:20
3 able	2304 occurrences of
2 about	670 different words.
4 above	413 words occur only once.
2 Abraham	
1 abroad	
1 according	
1 adulterers	
1 adulteresses	
2 adultery	
2 afflicted	

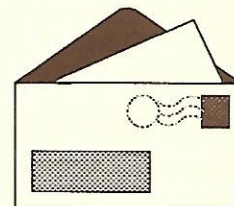

Boundaries

0 words occur less times than 1
670 words occur within the boundaries
0 words occur more times than 64000

Use the **Boundaries** button to narrow the word list. For example, set the option to include only words that occur at least 5 times and no more than 20 times. This will ignore the words that occur only rarely and the words that occur everywhere.

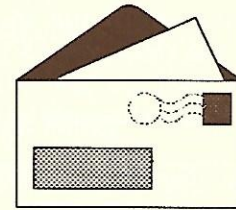

New: Find all Comments Command

The Personal Commentary product includes a new command to search the Bible for all verses that have your personal comments attached. This command creates a Verse List. Every verse in the list has a comment associated with it. The Verse List can be used to display each verse.

New: Find English/Root Match Command

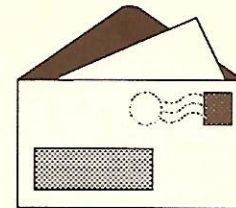

The Greek transliterator product includes a new command to find a matching pair of English and Greek word roots. You may select any word in the New Testament and choose any Strong's reference number. Every verse will be found that contains that English word translated from that Greek word root. For example, you can search the New Testament for the English word "love" that was translated from the word "agape" (#0026) in the original Greek text. The Hebrew transliterator also includes this command for the Old Testament and the Hebrew word roots.

New: Format Options

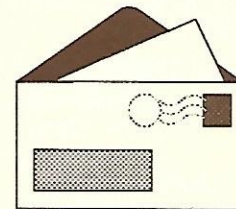

Every verse printed or copied to the clipboard is now formatted as requested by the options set by the user on the Page Layout dialog. The format options include:

- ✿ placing the reference at the beginning or end the verse
- ✿ enclosing the reference in brackets [John 3:16]
- ✿ using the full book name or abbreviations
- ✿ using full or partial reference or omitting the reference
- ✿ including a translation label on each verse [KJV]
- ✿ inserting a number of blank lines between each verse.

New: Automatic Page Eject

Many users prefer to print a little Bible text and add to it later. Verse Search keeps track of each line printed and only ejects the page from the printer when it is full or the user requests. There is a new option on the Printer Setup dialog to automatically eject the page from the printer after every print request. This is most useful for a laser printer or when you always want to see each print as soon as it is requested.

New Products

The Living Bible (for DOS or Windows)

The paraphrased Living Bible is now available as an add-on product. Many users find it helpful to display the Living Bible text beside their translation. A paraphrase can be helpful in simplifying the text, especially when teaching or for personal reading or meditation. Any Bible text can be displayed side by side with other verses or other translations for easy comparison.

New Product: How to Study the Bible for Yourself! (for Windows)

Bible Research Systems is offering for the first time a software product that stands alone from our other products. It is an interactive book! A software book that teaches a method for reading the Bible. It is designed to reduce error in interpretation and increase your confidence in reading the Bible accurately and effectively for yourself.
